You will carry out construction operations such as cargo handling, loading, loading of rock parts into a truck, pit filling. We already have good games. Parts Changed, New Business Machines Added, More 5 stars for business machine and comment :) Read More Are you feeling exhausted after finishing your work? Are you bored of not having fun at recess? Do not worry. Coin Dozer is your savior.Just by hearing the name, you will begin to find it familiar. It is understandable because this game has been trendy in supermarkets and amusement parks. Seeing its influence, app developer Game Circus LLC created a Coin Dozer mobile version. When it was first released in the app store, it had millions of downloads and positive reviews. So what makes this game so attractive? Let's explore this game with me!IntroCoin Dozer has straightforward gameplay. When participating in this game, players will be immersed in a world full of beautiful coins. Moreover, the levels of playing attractive missions will give players exciting gaming moments.When participating in the Coin Dozer puzzle game, you need to drop the gold coin in the right position to push it down. You collect as much gold and gifts as possible, and at the same time, avoid dropping money to the side. You will start with 40 gold coins, try to collect more to avoid ending the level early. Levels follow each other when the XP bar is filled, and the table ends when you run out of gold.Not simply collecting gold coins, but Coin Dozer players also have the opportunity to earn gifts such as Teddy bears, wristwatches, diamonds, dice, or giant gold coins. The game requires ingenuity, calculation, and a little luck to last one turn. The tip is that you should not drop several coins simultaneously and in the appropriate positions to increase the machine's thrust.Coin Dozer is designed with impressive 3D graphics. Players will use the drop mechanism, push real physics, so the game is lifelike.There will be more than 30 types of rewards and striking gold. Alternatively, you can use the add-in and the table shake option for assistance.Specifications of Coin DozerCategory: UniversalGraphics: 2DMode: OfflineAge: 17 years old and upPublisher: Game Circus LLCOperating system: Android 5.0 and above, iOS 9.0 and aboveRelease date: June 27, 2011Game price: FreeGameplayCoin Dozer bring straightforward gameplay. Your task is easy. You just need to touch the screen to drop the coin. Then the coin will be pushed and dropped the coins; the rewards are arranged on the table. This game makes a lot of fun. The player can only eat the coins falling down the chest in front. If the coin falls to two sides, the player will not be counted for that coin. It is also the point that makes the game so attractive.Despite the simple gameplay, the game requires players to choose a proper coin drop position and create enough force to push the coins on the table to fall. The element of luck is also what players need when playing the game. It creates a sense of excitement and thrill for players.When playing the game, you will level up when you accumulate enough points. Points are converted according to the number of coins you have pushed and dropped. When you run out of coins to drop, you can earn more coins and money by watching promotional videos. Or to save time and have money faster, you can buy coins with real money.The game added a shake feature to assist players. When playing, the player will gradually accumulate the power bar of this feature. When you feel enough force with just one button, it will help you create a vigorous shake and potentially drop many coins.There will be unique coins such as silver coins or giant coins that create excitement for players in addition to regular gold coins. You must try to bring those unique coins down by your way. The game also offers a system of diverse missions with daily attendance with attractive rewards to motivate players. Attractive rewards are waiting for you. Features of Coin DozerAttractive Reward SystemCoin Dozer is more than just a coin push. You can collect its bounty system. With 44 rewards, the process of winning gifts is not easy. However, if you diligently follow the game's requirements, you can get it in a short time.Realistic 3D GraphicsThe developer has designed this game to look the most realistic, so you feel that you are experiencing it outside of the mall. Although the game does not have outstanding graphics, it still attracts many players. Sometimes, simple graphics capture people's hearts. You will enjoy coins, gifts, teddy bears, and countless other rewards every time they fall below. The real physical drop and push mechanism increase the vibrancy of Coin Dozer.Useful PluginsIf you feel incredibly impatient because you have not received any coins yet, use the support method by shaking the table. But you won't be doing this very often and will have to wait a certain amount of time. Every time you shake the coin table, it will drop a lot of gold or silver coins. However, be careful as it can fall to the sides. If so, you will not receive a reward.Sound and GraphicsCoin Dozer gives players simple 2D graphics, but players are incredibly interested in the variety of eye-catching golden coins. The coins are shaped in detail, creating a sense of authenticity for players. Besides, the game interface is also streamlined with the navigation located right on the game screen of the game to help players easily manipulate and adjust options.Background music is not used in the game. Instead, the sound of a coin drop and the sound of coins when falling into the live box contributes to the game's appeal.FAQsHow to Play Coin Dozer?Many people also wonder how this game plays. But in fact, it is not as complicated as you might imagine. After my tutorial, you will find it extremely simple!First of all, make sure that you already have this game on your device. Please take a look at the platform of your choice and download it from iTunes, Google Play, select Windows devices, or from Amazon.Next, you open up the application. For those who play Coin Dozer for the first time, the system will give you a small tutorial. If you want to ignore it, lightly tap the screen. Your main task is to drop coins on the platforms to push coins into your collection Occasionally, unique coins and prizes will appear suddenly. You have to do your best to get them into your collection. It will help you create some special events to get even bigger rewards.However, be careful as you can push it to the sides. You will lose a coin, not receive it. If you work hard to push coins, you will level up by getting XP. The pieces will begin to fall when you reach level 5. At this point, you can collect these pieces and unlock some puzzle scenes. If I Uninstall The Game, Will I Lose All Progress?You should not uninstall the game if it crashes. If you remove it by accident, all game data and progress will be lost entirely and cannot be recovered due to privacy restrictions. You should send a letter to the game developer's customer support. They will help you as much as possible by researching the problem.Final ThoughtsOverall, while Coin Dozer has simple gameplay and casual graphics, it is still easily addictive for players. If you are not a serious gamer and heavy graphics, you will still find Coin Dozer Mod APK a product worth enjoying and suitable for entertainment.
