**MULTIPLYING FRACTIONS SHEET 4**

Multiply these fractions together. Your answer should be given in simplest form, and written as a proper fraction or mixed number (not as an improper fraction).

1)  $\frac{2}{5} \times \frac{1}{3} =$       2)  $\frac{4}{7} \times \frac{3}{4} =$       3)  $\frac{3}{8} \times \frac{5}{6} =$

4)  $\frac{3}{9} \times \frac{2}{3} =$       5)  $\frac{5}{6} \times 8 =$       6)  $\frac{3}{11} \times \frac{2}{3} =$

7)  $\frac{6}{7} \times 5 =$       8)  $\frac{1}{6} \times \frac{8}{9} =$       9)  $\frac{3}{10} \times \frac{4}{5} =$

10)  $\frac{2}{11} \times \frac{3}{8} =$       11)  $9 \times \frac{5}{7} =$       12)  $\frac{4}{3} \times \frac{3}{10} =$

13)  $\frac{7}{4} \times \frac{8}{9} =$       14)  $\frac{4}{13} \times \frac{3}{5} =$       15)  $\frac{8}{11} \times 7 =$

16)  $\frac{8}{3} \times \frac{4}{11} =$       17)  $13 \times \frac{3}{8} =$       18)  $\frac{5}{14} \times \frac{4}{5} =$

19)  $\frac{7}{11} \times 9 =$       20)  $\frac{5}{8} \times \frac{7}{5} =$       21)  $\frac{3}{13} \times \frac{8}{7} =$

22)  $\frac{6}{5} \times \frac{7}{12} =$       23)  $\frac{2}{11} \times \frac{9}{4} =$       24)  $\frac{8}{13} \times 12 =$

**Comparing Like Fractions**

GRADE 3

In comparing like fractions, it is always easy to compare two or more fractions if their denominators are of the same number.

Any two like fractions can be compared by comparing their numerators. The fraction with larger numerator is greater than the fraction with smaller numerator.

$\frac{7}{13} > \frac{2}{13}$  Because 7 is greater than 2.

Comparing Like Fractions

**MULTIPLYING FRACTIONS 1 ANSWERS**

1)  $\frac{1}{3} \times \frac{1}{2} = \frac{1}{6}$       2)  $\frac{1}{5} \times 3 = \frac{3}{5}$       3)  $\frac{1}{2} \times \frac{3}{7} = \frac{3}{14}$

4)  $\frac{2}{3} \times 4 = \frac{8}{3}$       5)  $\frac{1}{6} \times \frac{3}{4} = \frac{3}{24}$       6)  $\frac{3}{4} \times 5 = \frac{15}{4}$

7)  $\frac{3}{7} \times \frac{4}{5} = \frac{12}{35}$       8)  $7 \times \frac{4}{9} = \frac{28}{9}$       9)  $\frac{4}{9} \times \frac{1}{2} = \frac{4}{18}$

10)  $\frac{1}{8} \times \frac{3}{4} = \frac{3}{32}$       11)  $\frac{5}{7} \times \frac{2}{9} = \frac{10}{63}$       12)  $8 \times \frac{7}{9} = \frac{56}{9}$

13)  $\frac{4}{7} \times \frac{5}{6} = \frac{20}{42}$       14)  $\frac{3}{8} \times \frac{4}{9} = \frac{12}{72}$       15)  $\frac{2}{7} \times \frac{8}{9} = \frac{16}{63}$

16)  $\frac{5}{8} \times 6 = \frac{30}{8}$       17)  $\frac{4}{7} \times \frac{5}{4} = \frac{20}{28}$       18)  $11 \times \frac{3}{8} = \frac{33}{8}$

19)  $\frac{5}{12} \times \frac{4}{5} = \frac{20}{60}$       20)  $\frac{4}{7} \times 14 = \frac{56}{7}$       21)  $\frac{5}{4} \times \frac{4}{9} = \frac{20}{9}$

**Easter Color By Number #5**

Name \_\_\_\_\_

Find the area of each rectangle.

**PINK:**  
 A rectangle with a width of 6 cm and a length that is twice as long as its width.  
 \_\_\_\_\_  
 A rectangle with a length of 15 cm, which is 5 times as long as its width.  
 \_\_\_\_\_

**BLUE:**  
 A rectangle with a width of 3 cm and a length that is 6 times as long as its width.  
 \_\_\_\_\_  
 A rectangle with a length of 12 cm, which is 3 times as long as its width.  
 \_\_\_\_\_

**GRAY:**  
 A rectangle with a length of 24 cm, which is 4 times as long as its width.  
 \_\_\_\_\_  
 A rectangle with a width of 2 cm and a length that is 9 times as long as its width.  
 \_\_\_\_\_

**YELLOW:**  
 A rectangle with a length of 28 cm, which is 4 times as long as its width.  
 \_\_\_\_\_  
 A rectangle with a width of 5 cm and a length that is 8 times as long as its width.  
 \_\_\_\_\_

**GREEN:**  
 A rectangle with a width of 3 cm and a length that is triple its width.  
 \_\_\_\_\_  
 A rectangle with a length of 25 cm, which is 5 times as long as its width.  
 \_\_\_\_\_

**PURPLE:**  
 A rectangle with a width of 6 cm and a length that is 6 times its width.  
 \_\_\_\_\_  
 A rectangle with a length of 18 cm, which is twice as long as its width.  
 \_\_\_\_\_

**BLACK:**  
 A rectangle with a length of 8 cm, which is 4 times its width.  
 \_\_\_\_\_  
 A rectangle with a width of 4 cm and a length that is 7 times as long as its width.  
 \_\_\_\_\_

**WHITE:**  
 A rectangle with a length of 30 cm, which is 10 times as long as its width.  
 \_\_\_\_\_  
 A rectangle with a width of 9 cm and a length that is triple its width.

### Multiplying fractions for 6th grade.

These 2-digit multiplication sheets have been designed for more capable students who need that extra challenge! We have more working sheets of 2-digit multiplication, including 2-digit multiplication problems on 3-digit on this page. Try again! To obtain a different worksheet using the same options: PDF format: go back to this page and press the button again. Here are some other worksheets for the hamlet for grades 6-7. Here are some sheets of work by fraction for grade 5. The sheets from 2 to 4 have 2-digit numbers more difficult to multiply and generally larger answers of 1000. The HTML format can even be modified. How to print or save these sheets need help with printing or rescue? Our generator of multiplication worksheets allows you to create your customized workshops to print, complete with answers. All training is shown step by step so you can see how it is processed. Here you will find a range of free printable multiplicable games to help children learn their multiplication events. The use of these games help your child learn their multiplication events at 5x5 or 10x10 and also to develop their memory and their strategic thought skills. At the end of the quiz, you will have the opportunity to see your results by clicking "Follow". You can generate working sheets in HTML or PDF format - both are easy to print. The use of these sheets help your child to: learn their multiplication tables up to 10 x 10; understand and use different multiplication models; Solve a series of multiplication problems. All sheets are carefully classified with different support levels. We have more working sheets to help your child learn and practice multiplication and division of These 2-digit multiplication sheets have been designed for more capable students who need that extra challenge! These sheets are aimed at fourth grade. For more information on the information we collect, take a look at our privacy policy if the error the error 'File not available' should appear in a pop-up window with a 'recharge' option in the lower right corner of the screen; do not click on the charging connection - does not click on everywhere on the screen but not inside Pop-up window The pop-up window should disappear and you should be able to see your results. Cié has the advantage that it is possible to save the work sheet directly from the browser (choose the file à ¢ à ¢ 'save) and then change it in word or other text processing programs. Multiplication sheets of the fraction: the 6-7 degrees of grade 6 and 7 students should use grade 5 working sheets for the review of the multiplication of the hamlet. Here you will find a range of free printable sheets and support to help your child learn to multiply the hamlets for whole or other fractions. Try our new Quick Quiz at the bottom of this page. The sheet 1 involves 2 digits for 2-digit multiplication with small numbers and responses up to 1000. Converting the support of the improper fractions that this is sometimes also called the reduction of the fractions to their simple shape. In the sixth and 7 ¨ ¨ degree, students simply practice the multiplication of the hamlet using larger denominators and more complex problems. Welcome to our page of working sheets of the multiplying fractions. It is possible to print a copy of the results from this page, such as PDF or as a paper copy. This leads you to a new web page in which the results will be shown. For incorrect answers, we added some useful learning points to explain which response was correct and because. Jump to: degrees of grade 4 of Grado 4 6-7 Basic instructions for work sheets each work sheet is generated randomly and therefore unique. In addition, they can use the following worksheets that Simple fraction equations in one step. FRACTION generator work sheets use the generator to create personalized working sheets for fraction operations. HTML format: simply update the work sheet page in the browser window. Sheets 1 to 4 consist of 15 problems; The sheets 5 and 6 consist of 20 problems. problems. 2 Welcome to our 2-digit multiplication worksheet page. We welcome all comments on our site or on the work sheets in the Facebook comments box at the bottom of each page. Quicklinks to ... take a look at our complete range below. These sheets are aimed at third grade third parties. We collect this information so that if a class of students are doing a quiz, individual results can be recorded together with the student's name. All free third-grade mathematics workshops in this section are informed by the elementary mathematics benchmark for the third grade. The 3 to 6 sheets involve the multiplication of a 2-digit number for single-digit numbers and the search for more difficult products. To obtain the work sheet in HTML format, press the "View in the browser" or "Create HTML work sheet". Follow these 3 simple steps to make your work sheets perfectly print! Mathematics Salamandre hope you like to use these free printable mathematical work sheets and all our other games and mathematics resources. Children begin their study on the multiplication of the fraction by learning to multiply a fraction by an integer (as 5 is  $5 \times \frac{2}{3}$ ) - in general in fourth grade. NB. We divided the work sheets into this page into two sections: 2-digit multiplication x 1 digits (3rd degree) 2-digit 2-digit multiplication (4 ¨ ¨ degree) Each section ends with some more difficult sheets for challenges for students more capable. This error is a Google error in the Google Quiz app: it is currently unsolved! We will be grateful for any feedback on our quiz, let us know using our link to contact us or use the Facebook comments form at the bottom of the page. We have a calculator to help you multiply two together. Other working sheets of double-digit multiplication (more difficult) take a look at some of our work sheets similar to these. Sometimes the work sheet generated is not exactly what you want. How to simplify the support page of the hamlets simplify the practice area of the hamlets, our quizzes were created using Google modules. Google. You will find a series of multiplication sheets to help you become more fluent and accurate with the tables. Do you need to create your working sheets of long or short multiplication in à ¢ à ¢ à ¢ Quick and simple way? We have many working sheets on this page to help you practice the skills of multiplying the numbers to 2 digits by 1 or 2 digits. So in fifth grade, they learn to multiply the hamlets by fractions and mixed numbers. Multiplication mathematics games such as printing or saving these sheets need help with printing or rescue? The page of the following printable fraction contains more support, examples and practice on the simplification of the hamlets. Multiplication sheets of the fraction: Grado 4 here are some other workshops for the degree 4. Before the child faces the fractions of multiplication, they should be sure to convert improper fractions into mixed numbers and also using a simple shape. The use of these sheets help your child to: multiply a fraction by an integer; Multiply 2 fractions together; apply their understanding of the simplest form; Do you want to test yourself to see how well did you understand this skill? Within each section, the sheets are carefully classified with the most easy sheets. In Grado 5, students learn to multiply the hamlets by fractions and mixed numbers for mixed numbers. Take a look at some of the other support pages of the multiplying fractions and division if you need more help to multiply or divide the hamlets. Take a look at some of our worksheets and resources similar to these. To get the PDF work sheet, just press the button entitled "Create PDF" or "Make PDF Worksheet". Multiplica calculator of fractions this support page help you discover everything on how to multiply the fractions The sheets were divided into two sections: the first section contains sheets that multiply fractions by whole the second section contains sheets that multiply fractions by other fractions. Cié entails the division of both the numerator and the denominator from a to Factor to reduce the fraction to the equivalent fraction with the small number of possible numerator and denominator. Formula to multiply two fractions  $\left\{ \frac{a}{b} \right\} \times \left\{ \frac{c}{d} \right\} = \frac{ac}{bd}$  how the support of the hamlets here will find a selection of fraction workshops designed to help Your child understand how to multiply a fraction by an integer or other fraction. There are several processed examples and a printable support sheet. The response key is automatically generated and is positioned on the second page of the file. Copyright à ¢ à ¢ © 2021 à ¢ K5 Learning you are here: Work Sheets at home is à ¢ à ¢ à ¢ ¢ The multiplication of the hamlet creates an unlimited supply of work sheets for the multiplication of fractions and mixed numbers (degrees 4- 7)! Work sheets can be made in HTML or PDF format - both are easy to print. You will also find printable support sheets and several mathematical sheets for this skill of learning fractions. This support page shows how to convert improper fractions into mixed numbers and how to convert mixed numbers into improper fractions. The sheets 1 and 2 involve 2-digit numbers by 2, 3, 4 or 5. It is possible to multiply mixed numbers or multiply a fraction also by an integer. Follow these 3 simple steps to make your work sheets perfectly print! How to print or save these sheets need help with printing or rescue? We do not collect any personal data from our quizzes, except in the "name" field which is optional. You can also customize them using the generator below. We also collect the results from the quizzes that we use to help us develop our resources. The sheets are carefully classified so that the most easy sheets come first and the most difficult sheet is the last. one.
